

SEVA 2014 CLASS SCHEDULE

THE SCHOOL OF ENVIRONMENTAL

AND VOCATIONAL ARTS is a

private, nonprofit educational

center situated on 50 acres of

land in the heart of the Catskill

Mountains of New York State. Our

campus is set among beautiful natural forests, herb

gardens, waterfalls and wildflower meadows. Founded

in 1982, SEVA opened its doors offering workshops that

focused on the use of alternative energy (solar and

wind power) systems, sustainable living, earth-

integrated building design, the cultivation of healing

herbs and organic agriculture.

SEVA honors a relationship of integrity with our

environment. As our way of life becomes increasingly

complex, it is vital that we learn to live and work in

harmony... within ourselves, with each other, and with

our environment.

SEVA offers a wide array of programs and workshops

that we can use to cultivate wholeness and well being.

Some of our workshops are in *Complementary Healing*

Therapies, Art and Creativity, the teachings of *Native*

American Traditions, as well as classes in *Meditation*

and Yoga, Nutrition, and Vegetarian Cooking.

We serve simple vegetarian cuisine. To honor the

environmental sensitivities of all visitors, we thank you

for refraining from bringing your pets and for not

wearing perfumes or scented oils.

Our schedule is always expanding. Keep in touch to

find out what we are doing next.

SEVA is a drug-free, alcohol-free, nonsmoking campus

that offers classes to all regardless of race, color,

gender, sexual orientation, religion, national origin,

age, or handicapped status.

Permaculture is an approach to designing perennial agricultural systems that mimic the complex interrelationships found in nature. Most people think of permaculture as solely an approach to agriculture, but it is grounded in three “ethics” that can be applied to all of life: 1) Care for the earth; 2) care for people; and 3) return of surplus to the earth, your family and your community. Permaculture is about building local resiliency that unites a community and brings forth the skills and talents of its individual members.
